At the beginning of the play, we can see three actors, waiting for their director to start the play. But the director is not coming. That's why they have to start now. The first character is Nora. She studies to be a scientist, but her dream is to be a chef. She is responsible and practical. The second character is Grace, the best friend of Nora. She wants to be a very famous actress. She is the opposite of Nora. And the last character is the narrator. Grace and Nora leave their home to go to London together. But their flat is really tiny. As they don't have any money, they have to apply to get a job. After that, Nora meets Tim, but Tim destroys their friendship. They both pursue their dreams, but not together. Nora becomes a chef, and Grace becomes an actress. At the end of the play, Grace goes to Nora's restaurant, and she renews their deep friendship,

This is a beautiful play, which was very interesting and funny. Our favorite scene is when Grace sings the song Frozen. Thank you Pickles Compagny.
