

English theatre day in Carnot High School

On Tuesday 11 th February, we saw « Playground » Played by two actresses and one actor from the company Pickles.

It's the story of two girls : Nora and Grace. They are best friends. They want to follow their dreams but it's not that simple. Nora wants to become a chef and Grace and wants to become a good actress. They move to London together. They are very different. There are many events that will change their lives.

The actors were on a stage with a black curtain. The light was in front of them. The music changed for each event, the costumes too. The make-up of Nora and grace was simple and natural. They was a lot of interaction with the audience.

We like the play because the plot was very good and funny. The acting was very good too. There are some props that created real life situations. Diego had many roles (director, dad of Grace; mother of Nora, Tim : the boyfriend of Nora)

To sum up, it was a very good theatre play. We saw good actors perform a great play. It was funny. We learnt a lot of things about friendship. Indeed, the play shows the power of friendship.
